ENG 1012	Fundamentals of English II
ENG 1101	Composition and Rhetoric
MAT 0097	Learning Support Math III
MAT 0098	Elementary Algebra
MAT 1012	Foundations of Mathematics
MAT 1013	Algebraic Concepts
MAT 1111	College Algebra
PSY 1010	Basic Psychology
PSY 1101	Introduction to Psychology
SCT 100	Intro to Microcomputers
SOC 1101	Introduction to Sociology

Web-enhanced (V)

Web-enhanced courses are traditional classroom courses that use the Internet as an important component of the course. The web-based component of the course supports classroom instruction and may require students to use the Internet in order to interact with one another and the instructor, to review content, to do research, to complete and/or submit assignments, or to take tests. Web-enhanced courses are assigned to a classroom for every contact hour described in the course syllabus. Typical web-enhanced courses will include several of the following elements online: Syllabus, Calendar, Readings, Resources, Bibliography, Glossary, Links to Professional Organizations, Current News, Lecture Notes, Listserv, Discussion Board, Tests.

Hybrid (K)

Hybrid courses are taught partially via the Internet and partially via the classroom. Hybrid courses are assigned to a classroom for a minimum of 50% of the course time as indicated on the course schedule.

Online

Online courses are 100% web based. Online courses do require an on-site component, and that component is detailed in the syllabus.
